### Investment Philosophy

The Blue Mountain Community Foundation's endowment funds are invested in a "Balanced" portfolio, which is structured for long-term total return. To provide diversification and to moderate risk, the investments are divided into carefully-defined asset classes. Funding available for each asset classification is invested by professional money managers hired by the Foundation through a rigorous selection process. The investment performance of each money manager is monitored by an independent investment consultant retained by the Foundation.

### Investment Committee Mission

The mission of the Investment Committee is to provide oversight, guidance and direction regarding the investment of the assets of the Foundation. The Investment Committee operates under guidelines of the Investment Policy Statement approved by the Board of Trustees of the Foundation. In accordance with this policy the Investment Committee is committed to:

1. Protecting the corpus of the endowment;
2. Preserving the spending power of the income from the fund;
3. Maintaining a diversified portfolio of assets in order to meet investment return objectives while keeping the level of risk commensurate with that of the median fund in a representative foundation and endowment universe; and
4. Complying with applicable law.

### Recent Investment Committee Actions
